(54) Title: ENERGY SUPPLY MANAGEMENT METHODS, APPARATUS, MEDIA, SIGNALS AND PROGRAMS

(57) Abstract: Methods, apparatus, media, signals and programs for managing energy supplied by an energy supply are disclosed. One such apparatus includes an energy accumulation device, which includes an energy accumulator and a controller configured to place the energy accumulator in electrical communication with the energy supply and with a load. The apparatus further includes an energy transfer device in communication with the energy accumulation device and with the energy supply and configured to transfer accumulated energy from the energy accumulator to the energy supply.
